™ Trademark of Ensystex, Inc. used by licence to Ensystex Australasia Pty Ltd.

### CONDITIONS OF USE BY AUTHORISED PERSONS

For termite treatments the pest control operator must be licensed under state legislation.

For pre-construction termite treatments, the pest control operator must advise the site supervisor, if any, and any workers who may come into contact with uncovered treated soil prior to laying the moisture membrane, to wear appropriate personal protective equipment and to observe re-entry requirements. (For personal protective equipment, refer to "SAFETY DIRECTIONS", and for re-entry, refer to "PRECAUTIONS AND RE-ENTRY PERIOD", below.)

### PRECAUTIONS AND RE-ENTRY PERIOD

DO NOT spray directly on humans, pets or animals. Avoid contact with food, food utensils or preparation surfaces.

#### Re-entry Period

*Pre-Construction:* Re-entry - DO NOT allow entry into uncovered treated areas until the spray has dried. When prior entry is necessary, wear cotton overalls, over normal clothing, buttoned to the neck and wrist, elbow-length PVC, neoprene or nitrile gloves and chemical resistant footwear. Clothing must be laundered after each day's use.

*Post Construction, Vector Control and Urban Pest*

*Management:* Allow treated areas to completely dry (normally 3-4 hours) and ventilate buildings before re-occupying. Worker re-entry to treated areas should be restricted until the spray has dried. When prior entry is necessary, wear cotton overalls, over normal clothing, buttoned to the neck and wrist, elbow-length PVC, neoprene or nitrile gloves and chemical resistant footwear. Clothing must be laundered after each day's use.

### STORAGE, SPILLAGE AND DISPOSAL

Store in closed original containers, in a cool, well ventilated area away from children, animals, food and feedstuffs. Do not store for prolonged periods in direct sunlight.

In case of spillage, confine and absorb spilled product with absorbent material such as sand, clay or cat litter. Dispose of waste as indicated below or according to the Australian Standard AS 2507 - Storage and Handling of Pesticides. Do NOT allow spilled product to enter sewers, drains, creeks or any other waterways.

Triple or (preferably) pressure rinse containers before disposal. Add rinsings to the spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point.

*continued over...*

If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots in compliance with relevant Local, State or Territory government regulations. Do not burn empty containers or product.

Do not bury waste or surplus product. Dispose of undiluted waste either by dilution and use according to the Directions for Use table or returning to the point of purchase in the original container for controlled disposal. Dispose of diluted surplus product by using according to the Directions for Use table. Do not re-use empty container.

### SAFETY DIRECTIONS

Poisonous if swallowed. Will irritate the eyes and skin. Repeated exposure may cause allergic disorders. Avoid contact with eyes and skin. When opening container, mixing and loading and preparing the spray, wear cotton overalls buttoned to the neck and wrist, a washable hat, elbow-length chemical resistant gloves and face shield or goggles. When using the prepared spray wear cotton overalls buttoned to the neck and wrist, a washable hat and elbow length chemical resistant gloves. When using in enclosed areas, wear cotton overalls buttoned to the neck and wrist, a washable hat, elbow-length chemical resistant gloves and half facepiece respirator with combined dust and gas

cartridge. If product in eyes, wash it out immediately with water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves, contaminated clothing, face shield or goggles and respirator. If rubber wash with detergent and warm water.

### FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.

### MATERIAL SAFETY DATA SHEET

Additional information is listed on the Material Safety Data Sheet for MAXXTHOR DEUCE WATER-BASED TERMITICIDE AND INSECTICIDE which is available from Ensystex on request. Call Customer Service on 13 35 36 or visit our web site at [www.ensystex.com.au](http://www.ensystex.com.au).

### NOTICE

Ensystex warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with Directions for Use under normal conditions of use. No warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of the product contrary to label instructions or under off-label permits not endorsed by Ensystex, or under abnormal conditions.
